PROFESSIONAL SUMMARY

BS Information Technology graduate with hands-on experience building web projects and business automation workflows. Comfortable with Node.js, PHP, and MySQL, with practical project work involving n8n, GoHighLevel, Microsoft Power Automate, API/service integrations, and workflow troubleshooting. Interested in developing reliable software and AI-assisted operational systems, including maintenance request management and process automation.

TECHNICAL SKILLS

Backend & databases: Node.js, PHP, MySQL; backend application fundamentals and database design

Frontend: HTML, CSS, JavaScript, responsive web development

Automation & integrations: n8n, GoHighLevel, Microsoft Power Automate, Google Calendar and Gmail integrations, CRM workflows, APIs and webhooks

Tools & infrastructure: Git, GitHub, Docker Desktop, Microsoft Power Apps, Excel Online

SELECTED PROJECTS

BrightSmile Dental Clinic | AI Appointment Automation (Personal Project, in development)

- Built and tested n8n workflows integrating Google Calendar and Gmail for appointment availability, scheduling, and verification.
- Implemented OTP-based verification logic and appointment matching; troubleshot workflow validation and integration issues.
- Developing additional patient-service workflows; project is not presented as a production deployment.

FreshNest Cleaning Services | Website & CRM Automation (Personal Project)

- Developed a responsive lead-generation website with HTML, CSS, JavaScript, and an interactive cost estimator.
- Connected GoHighLevel forms to CRM contact creation, lead tagging, pipeline opportunities, and workflow automation.

Demo: super-seahorse-5866c3.netlify.app | **Code:** github.com/mainecedric17/freshnest-cleaning-automation

Student Information System | Microsoft Power Apps & Power Automate (Project)

- Built a Microsoft Forms-to-Excel Online intake flow with a Power Apps interface for reviewing student records.
- Automated HTML-to-PDF generation, email delivery, and Excel status/date updates; verified the end-to-end flow in testing.

Personal Portfolio Website | Web Development (Personal Project)

- Created a responsive portfolio to showcase development projects, technical skills, and contact details.

PROFESSIONAL EXPERIENCE

IT Support Intern | World Citi Inc. / World Citi Medical Center and Colleges | Nov 2025 - May 2026

- Troubleshot workstation, printer, software, and connectivity issues in hospital and educational environments.
- Configured IP settings, assisted with LAN troubleshooting, and deployed laboratory and office workstations.
- Supported routine maintenance and documented or escalated user-reported technical issues.

EDUCATION & TRAINING

National University - Fairview | Bachelor of Science in Information Technology | 2022 - 2026

Full Stack Web Developer - Udemy | Ongoing
